Picture Powderhorn Celebration!

May 21, 2 pm **FREE**

You're invited to a party celebrating a neighborhood and the 16 area young people who are helping it become a work of art in the performance **Picture Powderhorn**. See a dance demonstration and video footage filmed by teens as part of their research on the Powderhorn community. This celebration culminates the teens' three-month arts-immersion program with San Francisco-based choreographer Joanna Haigood, in which they gathered interviews, firsthand stories, and recordings of people from around the neighborhood. The material will be incorporated into the August performance of **Picture Powderhorn**, a site-specific work featuring dancers suspended on the face of one of Minneapolis' largest grain elevators.

Come share in this special presentation of the Powderhorn neighborhood!
